Learning Challenge:

Plant Life! How does your garden grow?

Dear Parents and Carers,

This half-term we'll be learning all about plants, what they need to grow and how the weather and seasons affect plant growth. We'll also be learning about the importance of plants in our daily life.

We're looking forward to another very busy and fun half-term and to seeing your child's plant project as part of their learning challenge homework. On the 13th July the children are going on a class trip to "Naturescope" in Wandsworth, where they'll have a chance to have a "hands on" experience linked to their learning about Plants, which we think they will thoroughly enjoy!

Thank you for your continuous support!

Mrs Cunningham and Ms Maria

Special Notices

Please ensure your child is at school at 8:55am in the correct school uniform.

Lessons begin at 9am and children who are regularly coming in late are missing essential learning every day.

Values:

June: Friendship

July: Humility

Learning to love, loving to learn

Summer 2 2018

Class Teacher: Mrs Cunningham

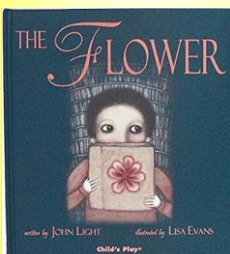

TA: Ms Maria

Ways to help your child at home:

- Discuss with your child the things that they have learned each day.
- Ensure all homework is completed
- Get your child into a good routine for completing homework.
- Encourage your child to read for at least 20 mins a day.
- Read and discuss together the "Wednesday Word" every week.

Learning Challenge:

In this learning challenge we will explore questions like "What are plants? What do plants need to live and grow?" In English we will be reading plants and gardening themed books and we'll be looking at features of persuasive writing. We'll also have a go at writing our own flower story. In Maths we will carry on practising solving problems involving halves and quarters and we'll learn to measure and record time. We'll also revise our knowledge of 2D and 3D shapes. In Science we will investigate the different parts of plants and flowers and link it to healthy eating. We'll find out how the weather and other factors can affect plant growth.

Learning Challenge Homework due on 04.07.18!
